## Sneakers Paint - Glow in the Dark

Modell/varenr.: 2018-TNC10

**6,90** □ (inkl. mva.)

Sneakers Paint Glow in the Dark is the only paint with a water-based photoluminescence color dye specially formulated to customize your smooth leather, synthetic leather or canvas sneakers. Its matt finish and unique formulation, evidence a high endurance and a perfect finish. After different studies in our laboratory we evidence to conclude that it offers a high resistance to wet/dry friction and flexions preventing the dye from cracking and keeping the customize in perfect conditions.

- The box contains a 25ml. / 0.9 fl. oz. color bottle, a paint brush, an applicator sponge, a dosing cap and a leaflet.

- As a water-based formula, it is not considered a hazardous product for the consumer or the environment.

- Glow in the Dark is specially formulated to sneakers.

- To enhance the brightness, expose to sunlight for a few hours.

- Lasting photoluminescence painting: 20 years.
