

**Family : Waterproofing**  
**Support : Universal**

**Tarif Code : 1735**

# Protector

**VOLUME :**  
200 ml

## TECHNICAL CHARACTERISTICS

The Protector protects against rain, snow, mud and stains of all kinds (grease, drinks, etc.). It also prevents dirt from penetrating.

It contains no solvents or flammable gases, so it's environmentally friendly and protects the health of users. Its concentrated formula contains only the active product, with no added liquefied gas. For use in poorly ventilated areas

## CARE INSTRUCTIONS

1. Brush the item to remove dust and dirt from the surface.
2. Shake the bottle.
3. Spray 20 cm evenly over the item, without wetting it.
4. If necessary, use a cotton cloth to absorb any droplets left on the surface.
5. Leave to dry for 6 hours.

Important: On slightly porous surfaces, remove any droplets left on the surface with a cotton cloth to prevent them from drying, which could leave marks on some materials. If you wish to use this product on new smooth leather that has never been waxed before with a product from the Saphir range, we recommend that you first carry out a test on a hidden area.

As mentioned above, take care not to let the product droplets dry on the surface.

Reapply regularly, without risk of damaging the protected surfaces.

*Old*

*New*

## FIELD OF APPLICATION

Suede, nubuck, textile, TEX and synthetic materials.  
 If you wish to use the product on smooth leather, make sure the material is clean and porous so that the product penetrates effectively and does not leave droplets on the surface.
